

# COSMOS CALLING

SPACE THE NEXT FRONTIER

**Thursday 15<sup>th</sup> August 2019 • 6.00 – 9.00 pm**

Sci-Tech Planetarium • City West Centre • Sutherland St • West Perth

Be inspired by the 'Capturing the Cosmos' planetarium show followed by presentations and panel discussion to celebrate WA's women in space.

## Professor Lyn Beazley

Neuroscientist and former WA Chief Scientist, will MC an evening to share the work and lives of:

**DR NATASHA HURLEY-WALKER**

who uses precursor SKA radio telescopes to create a map of the sky in radio colour

**DR KATARINA MILJKOVIC**

who leads the only Australian planetary science group working on NASA's Mars InSight Mission

**DR ELLIE SANSOM**

who is the science team lead for the Australian Desert Fireball Network

**Tickets \$75 from Trybooking**

Tickets include canapes, glass of wine and soft drinks.

To celebrate Zonta International's centenary, please feel free to dress up as someone from 100 years in the past or 100 years in the future - not compulsory!

All proceeds go to Zonta health and education projects to empower women and girls on planet Earth.
